PROFESSIONAL SUMMARY

Detail-oriented Computer Science and Engineering undergraduate (B.Tech, 2027) with strong foundational expertise in **Python development, Data Analytics, and Full-Stack Web Development**. Proficient in **Python, SQL, MySQL, MongoDB, Pandas, NumPy, and Tableau**. Experienced in building end-to-end web applications, including an academic resource platform with secure authentication and admin controls. Seeking an entry-level role or internship in Software Development or Data Analytics to solve real-world problems and drive data-informed decisions.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, C
Data Analytics & Visualization: Pandas, NumPy, Matplotlib, Tableau, Microsoft Excel
Web Technologies: React.js, Node.js, Express.js, HTML5, CSS3
Databases: MySQL, MongoDB
Developer Tools: Git, GitHub, Visual Studio Code, Jupyter Notebook

PROJECTS

1. DBRAU Engineering Notes Platform

Technologies: Node.js, Express.js, MongoDB, JavaScript, HTML5, CSS3 | *Live:* dbrau-engineering-notes.onrender.com | *Code:* GitHub

- Architected a full-stack educational web platform providing B.Tech students with streamlined access to study notes and previous year question papers.
- Engineered secure user authentication (registration/login) and personalized student dashboards.
- Built a dedicated admin panel to efficiently upload, categorize, and manage academic PDF resources.
- Integrated MongoDB to handle structured data storage and ensure smooth PDF viewing and downloading across devices.

2. Exploratory Data Analysis & Visualization

Technologies: Python, Pandas, NumPy, Matplotlib, Microsoft Excel

- Conducted end-to-end data cleaning, manipulation, and statistical analysis on raw datasets using Pandas and NumPy.
- Designed informative visual reports, charts, and graphs using Matplotlib to uncover actionable trends and patterns.
- Utilized Microsoft Excel for advanced data classification, pivot tables, and summary reporting.

3. AI Interview Preparation Platform (Concept & Prototype)

Technologies: React.js, Node.js, MongoDB

- Conceptualized and prototyped a full-stack application aimed at streamlining candidate interview readiness.
- Designed core modules for resume tracking, mock interview management, and user progress monitoring.

4. Personal Developer Portfolio

Technologies: HTML5, CSS3, JavaScript | *Live:* vipulyadav557.github.io

- Developed and deployed a responsive personal portfolio website to showcase technical projects, skills, and certifications.

INTERNSHIPS & VIRTUAL EXPERIENCE

Deloitte Australia – Data Analytics Job Simulation (Forage) | *June 2025*

- Completed a practical industry simulation focused on data analytics and forensic technology.
- Built interactive data dashboards in **Tableau** to visualize key business metrics.
- Analyzed and classified complex datasets in **Microsoft Excel** to extract actionable business insights.

CodSoft – Web Development Intern | *July 2024 – August 2024*

- Completed a 4-week intensive web development internship, building responsive web components and frontend layouts.
- Applied modern HTML, CSS, and JavaScript best practices to deliver functional web tasks on schedule.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering
Institute of Engineering and Technology, Dr. Bhimrao Ambedkar University, Agra | 2023 – 2027 (Expected) | ***CGPA: 6.8 / 10***

Class XII (Senior Secondary) – UP Board
Completed: 2021 | ***Percentage: 74%***

CERTIFICATIONS & TRAINING

- **Data Analytics Job Simulation** – Deloitte Australia (Forage), June 2025
- **Web Development Internship Certificate** – CodSoft, August 2024
- **Cyber Security & Ethical Hacking Training (14 Hours)** – Skill India / Tech Mahindra Foundation, April 2024
- **Certification in Data Analytics** & **Certification in C Programming**
